BOSCA[®]

STYLISH | SUSTAINABLE | WARMTH

Bosca are one of the premier suppliers of high-quality woodburning stoves, delivering advanced standards in technology, performance and design to your home.

With 25 years of experience in developing effective and efficient heating in one of the world's most dramatic climates, Bosca stoves are well-placed to ensure your home is warm and welcoming all year-round.

New to the UK, the Bosca (which stands for Burn Off Smoke Clean Air) stoves present simple yet stylish designs with clean lines and smooth, elegant exteriors that will not only heat but also enhance your living space.

From Bosca's inception in New Zealand, through to its development and expansion in Chile, Bosca's combination of style and technology has proved successful. Bosca stoves are now the market leaders in their home country of Chile.

Quality & trust guaranteed

All Bosca stoves in this brochure are CE marked and approved. This means they have been independently tested to exacting European standards for both heating efficiency and emissions. All Bosca stoves are covered by our 2 year warranty*.

Total ease and safety

Convection panels, Airwash and Cleanburn features are included as standard. Airwash ensures the glass of your stove stays cleaner for longer, while the Cleanburn system ensures fewer emissions go up the chimney and into the atmosphere. Therefore, not only are these stoves quick and easy to light, but they are also better for the environment and the glass stays really clean for uninterrupted viewing of the dancing flames!

Healthy heat, green heat

Burning wood in your woodburning stove is environmentally-friendly in terms of producing carbon neutral energy. This means that the carbon dioxide released into the atmosphere is approximately the same as that absorbed by the tree during growth, making wood a better fuel for you and the environment. For optimum results we recommend using logs that have been seasoned for 2 years or more to achieve a moisture content of 20% or below. This will not only give twice the output of freshly felled timber, but also helps avoid a build up of tar in your flue.

Greater heat for a longer time

The Bosca woodburning stoves are designed to be both economical and efficient. The integral fire bricks are designed to continue to emit heat even after the fire has gone out.

*Product warranties are dependant on your Bosca stove being installed and serviced annually by a HETAS qualified engineer. The product warranty does not cover naturally wearing parts such as grate, bricks and glass. Full details of the warranty are set out on our website at www.boscastoves.co.uk

A simple yet stylish design that incorporates all the desired functionality, technology and safety features Bosca is renowned for. The 3.5kW heat output makes this design ideal for any snug or living area.

The Limit 350 stove is the perfect solution for those wishing to combine environmentally friendly high-quality heating with a contemporary design.

Efficiency:	66%
Heat Output:	3.5kW
Airwash:	Yes
Cleanburn:	Yes
Dimensions (wxhxd):	380 x 733 x 495mm

LIMIT 350

AIR
WASH

CLEAN
BURN

The 350's little sister, the Limit 350S provides a more compact alternative if space is at a premium, without compromising on heat.

At only 580mm high it is designed to fit into a standard UK fireplace opening, allowing for easy installation without any additional building work. There is no compromise however on the flame visuals making the 350S the perfect focal point for your room.

Efficiency:	66%
Heat Output:	3.5kW
Airwash:	Yes
Cleanburn:	Yes
Dimensions (wxhxd):	380 x 580 x 495mm

LIMIT 350S

Larger than the 350, the Limit 380 provides a stand alone centrepiece for your home; a welcoming warmth for friends and family to gather around and relax.

The substantial 7kW heat output will keep your home warm while the dancing flames provide a mesmerising attraction. The built-in Airwash system ensures a clear view of the flames at all times.

Efficiency:	75%
Heat Output:	7kW
Airwash:	Yes
Cleanburn:	Yes
Dimensions (wxhxd):	466 x 863 x 495mm

LIMIT 380

Designed to reside in either a corner or freestanding in the centre of a room, the Aresta 360 provides a versatile and powerful heating source, generating up to 8kW of heat.

The smooth, elegant exterior ensures it complements surroundings that are either traditional or contemporary. With 81% efficiency it combines style with an eco-friendly heat output.

Efficiency:	81%
Heat Output:	8kW
Airwash:	Yes
Cleanburn:	Yes
Dimensions (wxhxd):	594 x 814 x 439mm

ARESTA 360

Stylish and elegant, this woodburning stove will complement and enhance the ambience of your home.

A real focal point, the Firepoint 360 has been designed to be freestanding and includes both an Airwash system for uninterrupted viewing of the flames and a Cleanburn system to ensure reduced emissions.

Efficiency:	81%
Heat Output:	8kW
Airwash:	Yes
Cleanburn:	Yes
Dimensions (wxhxd):	524 x 799 x 485mm

FIREPOINT 360

The larger of the two Firepoint models, the 400 provides a wonderful combination of generous heat output and contemporary style. A generous firebox offers excellent capacity and control of the fire.

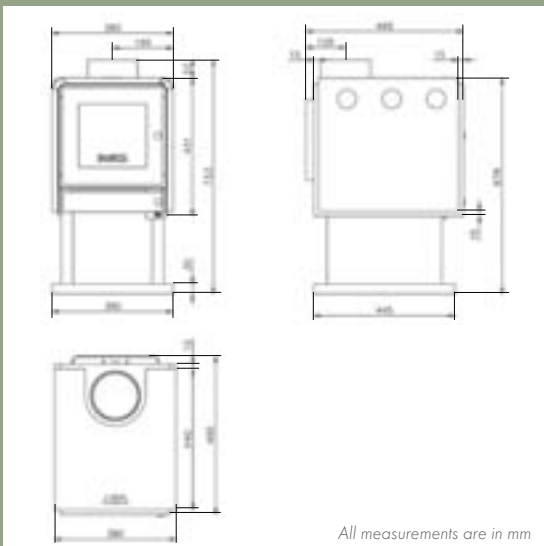

As with all Bosca stoves, there are stunning flame visuals aided by the Airwash system. Both Firepoint models have detachable handles to maintain their elegant lines.

Efficiency:	76%
Heat Output:	10kW
Airwash:	Yes
Cleanburn:	Yes
Dimensions (wxhxd):	580 x 899 x 530mm

Bosca pursue a policy of continuous product improvement, therefore, whilst our products are correct at the time of the photography, we reserve the right to make alterations and amendments. Exact product details should be discussed with your retailer at the time of purchase.

All fire and flame photography has been taken from genuine products, however, the exact appearance of the flame picture for any appliance will vary depending on the nature of the flue type, installation surroundings, local geographical features and the way in which the appliance is operated.

Yeoman is one of the UK's leading stove manufacturers. Their woodburning, multi-fuel, gas and electric stoves combine traditional appeal with modern technology, with each model representing superb value for money.
