

NOTHING WARMES BETTER

VARDE OVNE

## The Epitome of Danish Design

Varde Ovne is one of the leading Scandinavian manufacturers of high-efficiency woodburning stoves, focused on combining functionality, quality materials and designer aesthetics.

With a stylish collection of freestanding models, each at the pinnacle of contemporary stove design and incorporating the latest technology, a Varde Ovne stove offers complete ease of use and the finest flame experience to bring comforting warmth and an inviting atmosphere into your home.

At Varde Ovne, we have a burning passion for creating beautiful stoves that epitomise the fine craftsmanship and design flair that runs throughout our Danish heritage.

## Expert Retailer Network

We take great care to ensure that our stoves are designed, tested and manufactured to the highest possible quality and safety standards. We are just as concerned to make certain that they are sold and installed correctly so that you enjoy years of pleasure from your purchase.

Accordingly, you will find our products are only available from experienced, independent retailers who will be happy to show you a selection of models locally in their showrooms, often fully operational. These independent retailers will discuss your individual requirements both technical (such as sizing the heat output to your room and advising on your flue type) and design, and ensure that you select the most appropriate product for your home. They will also be able to advise on or assist with the installation process as well as help provide any after-sales support and servicing of your appliance that you may require in the future.

Whilst we encourage our retailers to promote fireplace products and their outlets via the internet, we do not believe suitable levels of customer care and satisfaction can be obtained from nationwide online sales and we would strongly recommend that you consider this when undertaking your research and making a purchasing decision. Further, please be aware that we do not offer technical support (beyond our statutory responsibilities) to products bought via nationwide online sales, where this support would normally be offered by one of our qualified, independent retailers.

Your Expert Retailer will provide you with a Five Year Extended Warranty for your new woodburning stove. Further details can be found on page 15.

# What you get with a Varde Ovne stove

## Convection System

All Varde Ovne stoves are based on a convection system that introduces cold air at the bottom of the stove and then releases heated air at the top. This special system promotes good air circulation and increases heat into the room.

## Cleanburn System

All Varde Ovne stoves have a Cleanburn system that introduces pre-heated combustion air into the top of the firebox which increases heat output and results in fewer soot particles going up the chimney.

## Airwash System

By cleverly controlling the airflow within the stove, the glass is kept clear from soot, thus allowing an uninterrupted view of the beautiful rolling flames within.

## AirBox External Air

Selected Varde Ovne stoves feature a superb 'AirBox' external air combustion facility. Taking combustion air from outside the building reduces draughts and greatly increases fuel economy to give you extra comfort in your home.

## Carbon Neutral Heating

Every Varde Ovne stove in this brochure is designed for the burning of wood. Nothing comes close to the real-fire ambiance that comes from heating your home with this carbon neutral fuel source. More information can be found on page 15.

MODEL  
VARDE AURA

---

# Quality details in an attractive design

The Aura range features high-quality cast iron doors, top plate, grate and base, alongside an integrated log store and options for both top and rear exit.

Large capacity ash pan

Ergonomically designed handles

Cast iron disc grate in base for easy ash removal

## VARDE AURA 1

Aura 1 has a large fire chamber with ample fuel storage space beneath the innovative door which opens when pressed gently.

Height:	1000mm	Heat Output:	5.0kW
Width:	500mm	Efficiency:	78%
Depth:	420mm	Weight:	104kg

See notes on British and Irish building regulations in the important Technical Information Section on page 14.

## VARDE AURA 2

Aura 2 is designed with a wider front, providing more space in the log storage chamber under the stove and an excellent view of the flames.

Height: 1000mm	Heat Output: 5.0kW
Width: 500mm	Efficiency: 78%
Depth: 430mm	Weight: 101kg

## VARDE AURA 3

At only 870mm high, Aura 3 is the smallest stove in the Aura range, making it perfectly suited to more compact living spaces.

Height: 870mm	Heat Output: 5.0kW
Width: 480mm	Efficiency: 78%
Depth: 430mm	Weight: 106kg

## VARDE AURA 11

Though the largest in the range at 1100mm high, Aura 11 has an elegant plinth for a light and airy look.

Height: 1100mm	Heat Output: 5.0kW
Width: 510mm	Efficiency: 78%
Depth: 430mm	Weight: 113kg

See notes on British and Irish building regulations in the important Technical Information Section on page 14.

# MODEL VARDE FUEGO

FUEGO 1

Contrasting handles

Cast iron disc grate in base  
for easy ash removal

Integral plinth

Elegant rounded  
corners

*See notes on British  
and Irish building  
regulations in the  
important Technical  
Information Section  
on page 14.*

## VARDE FUEGO 1

Combining geometric lines and subtle curves, the distinctive Fuego 1 will make a functional centrepiece in your home.

Height:	990mm	Heat Output:	5.0kW
Width:	500mm	Efficiency:	75%
Depth:	410mm	Weight:	125kg

## VARDE FUEGO 2

The Fuego 2 offers the same firebox characteristics as the 1, but with a smaller integral plinth.

Height:	890mm	Heat Output:	5.0kW
Width:	500mm	Efficiency:	75%
Depth:	410mm	Weight:	122kg

---

MODEL  
VARDE SHAPE 2

---

# A stove in good shape

The Shape 2 is a slimline stove with tall and slender proportions available in top or rear flue options. The Shape 2 comes with Varde's AirBox system that allows the choice of an external air supply if desired.

The Shape 2 also offers the option of complimenting the stove with either a beautiful Soapstone or Sandstone top, creating a stunning centrepiece for your room.

Combustion chamber designed to make it easy to light and clean the stove

Ergonomically correct adjustment of the air vent

Door, top plate, grate and flue made of high-quality cast iron

Ergonomically designed handle

Accessory: Soapstone top

Accessory: Sandstone top

## VARDE SHAPE 2

The Shape 2 is a stunning stove that will bring life into your living space, whilst offering a generous flame viewing window.

Height:	1020mm	Heat Output:	5.0kW
Width:	520mm	Efficiency:	74%
Depth:	410mm	Weight:	119kg

See notes on British and Irish building regulations in the important Technical Information Section on page 14.

MODEL  
VARDE UNIQ

---

# A 180 degree experience

Uniq's overall appearance exudes contemporary design. A closer look reveals elegant detailing; the joints, the corners and the attractive handle. Its tall, slender shape means that it does not take up too much space in a room, while still generating a great amount of heat, thanks to its large firebox. The Airwash system ensures a clear glass for that perfect view of the fire. The Uniq stove is also supplied with our AirBox system to allow an external air supply if required.

Contrasting handle detail

Large capacity ash pan

Elegant rounded corners

Adjustment of the air supply with one handle

Side windows for an increased flame visual

## VARDE UNIQ 1

With its three sides, Uniq 1 is a 180 degree experience. The fire from this stove really lights up the room. The side windows are double glazed and there is a large, practical space for storing fuel in the base of the stove.

Height:	1000mm	Heat Output:	5.0kW
Width:	500mm	Efficiency:	78%
Depth:	420mm	Weight:	104kg

A HETAS approved installer should undertake a site survey prior to purchase and must install any Varde Ovne Stove for you. Your Varde Ovne retailer will be able to advise and assist. You may view/download complete installation instructions at our website - [www.vardestoves.com](http://www.vardestoves.com). These diagrams/dimensions cover some of the basic requirements. All fires and stoves should be installed by a competent person to the requirement of Building Regulations (Document J) and include the fitting of adequate ventilation to ensure safe use. Usually older buildings do not need any additional ventilation for appliances up to 5kW, but modern houses will need additional ventilation in all cases. Some models can be fitted with an optional External Air Kit, or dedicated external air supply, offering a discreet and draught reducing solution to standard room venting.

Please note that all parts of these stoves, particularly the glass panel in the door, become extremely hot during operation and can result in serious injury and burns if touched. It is therefore recommended that a fireguard complying with BS 8423:2002 is used in the presence of young children, the elderly or infirm. Furthermore, by law all stove installations also require a Carbon Monoxide monitor.

Please note that the installations shown within this brochure may not conform to British and Irish building regulations. Please consult with a qualified professional installer (HETAS registered in the United Kingdom) for expert advice including the requirement for a hearth in your home.

Varde Ovne reserves the right to amend any specifications herein or to make any product design changes. Please note that, due to studio lighting and the limitations of the printing process, colour reproduction may vary from actual product. Please consult your Varde Ovne retailer for more accurate colours.

# FURTHER INFORMATION

## Varde Ovne & the Environment

When you heat your home with wood, you are in close contact with nature. This is a truly valuable way of exploiting nature's gifts and that's why Varde Ovne has always been devoted to utilising our natural resources with care & respect.

All Varde Ovne stoves are highly efficient and really make the most of this carbon neutral fuel source. The wood absorbs just as much CO<sup>2</sup> while it grows in its

natural environment as it emits when it is burned. Varde Ovne was the first manufacturer of woodburning stoves in the world to meet the strict requirements to the much coveted Nordic Ecolabel. The standard has stringent requirements for combustion efficiency as well as particle and hydrocarbon emissions.

To qualify carrying the Nordic Ecolabel a stove must not contain any heavy metals.

## 5 Year Warranty

Your Varde Ovne Retailer will provide you with a Five Year Extended Warranty for your new woodburning stove. Please note, this warranty excludes certain consumable parts and is dependant on your appliance being serviced by an appropriately

qualified person 12 months after installation and annually thereafter. Stoves purchased outside of Varde Ovne's Expert Retailer Network will carry a standard 1 Year Warranty. Full details of this warranty is set out to view on our website at [www.vardestoves.com](http://www.vardestoves.com).

## Professional XQ™ Chimney Systems

Varde Ovne recommends the Stovax comprehensive range of stove and fireplace chimney systems, the Professional XQ™ collection. With innovative decorative options, the ability to specify a colour for your system, and with a host of technical advancements, the Stovax

Professional XQ™ range provides an attractive, versatile and reliable solution for your flue system. For further information or to request a brochure, simply contact your local retailer or visit [www.stovax.com/chimneysystems](http://www.stovax.com/chimneysystems).
